Team 6 — Ohio State University

Services

Best Service	mssql-rdp (91.8% of top)
Worst Service	webmail-interactive (25.4% of top)
Services Tracked	19
Best Relative Performance	91.8%
Placement (Services)	10 / 12

Service	% of Top	Uptime	SLA Violations	SLA vs Avg
mssql-rdp	91.8%	91.8%	3	-3.2
mssql-mssql	91.8%	91.4%	3	-4.8
ad-ping	90.6%	90.6%	3	-0.9
webmail-ping	90.6%	90.6%	3	+0.6
ecomm-ping	90.1%	90.1%	3	+0.2
mssql-ping	90.1%	90.1%	3	-2.6
ad-winrm	87.2%	86.5%	4	-2
splunk-ping	86.9%	86.9%	4	+0.8
splunk-chrony	86.1%	86.1%	5	+0.2
splunk-mgmt	70.4%	70.1%	12	+5.8
mssql-smb	58.7%	56.6%	17	+0.5
webmail-smtp	56.9%	54.1%	18	+10.2
webmail-imap	56.7%	54.1%	18	+10
ad-dns	52.1%	51.2%	19	+10.6
webmail-ssh	51.9%	49.6%	19	+8.2
splunk-ssh	51.1%	47.5%	20	+8.6
ecomm-http	47.3%	46.7%	21	+6.8
splunk-query	40.8%	38.1%	25	+14.3
webmail-interactive	25.4%	23.8%	25	+8.8

'% of Top' compares each service's points against the best score achieved by any active team for that same service. Uptime is the percentage of checked rounds the service was available. 'SLA vs Avg' is this team's violation count minus the average for that service across all active teams (negative is better).

Red Team Activity

Successful Attacks	7
Unique Attack Types Hit	4 / 5

Placement (Red Defense) 12 / 12

Ref ID	Hits	Hits vs Avg
Application Persistence	2	0
Linux Root	2	+1
Nyan	2	+0.8
Willy Wonka	1	+0.9
Really Unfortunate	0	-0.1

'Hits vs Avg' is this team's hit count minus the average count for that attack type across all active teams (negative is better). A zero with a negative value means that attack succeeded against other teams but never this one.
